

The Overbury revamp features both traditional meeting room space (left) and consumer-focused display areas (below)

Contracts in brief

SAS crowns Queen Anne

SAS International has provided its radiant chilled ceiling system to create a clean new look for the offices at Howard De Walden Estates' 25 Queen Anne Street redevelopment in central London (above). The product helps maximise the floor to ceiling height of the building by minimising the service zone above the ceiling.

Hair firm opts for striking shop window

COMMERCIAL FIT-OUT SPECIALIST Overbury has helped complete the new 15,600ft² headquarters of hair products manufacturer ghd, next to the atrium within Leeds landmark development Bridgewater Place.

The two-storey office space, designed by Careyjones Interiors, is now home to more than 55 staff employed by the fast-growing beauty specialist. Meanwhile, the ground floor is very much the

company's shop window, with a catwalk running through the reception area and a multi-function training academy.

Upstairs is a more traditional open plan office space, with a high-specification boardroom and breakout areas.

Project: office fit-out

Client: ghd

Completion date: September 2008

Main contractor: WSP Group

Designer: Careyjones Interiors
Interiors contractor: Overbury

Stoke council chooses OBG glazing

ROCHDALE-BASED OFFICE BLINDS & GLAZING (OBG) has installed its frameless glazing system at Stoke-on-Trent City Council's offices.

The large glazed partitions, with minimalist framework and colourful graphics, create a bright atmosphere in the new open-plan offices, café and conference room.

The single-glazed system features a clip-fit design that virtually eliminates the need for drilling or screwing. The glazing is secured with translucent silicone, which provides almost invisible joints.

Project: glazed partitioning installation

Client: Stoke-on-Trent City Council

Value of contract: £20,000

The glazing has been fitted with translucent silicone

Completion date: mid-2008

Fit-out contractor: Dragonfly Contracts

Partitioning contractor: Office Blinds & Glazing
